

Boston's One-Stop Career Centers offer a comprehensive range of services to assist any job seeker through individualized services, access to state-of-the-art resource libraries, and workshops.

The Career Centers have staff and other resources to assist job seekers in attaining their personal goals. They can help a person who is looking for a first job; has lost a job to downsizing or plant closing; is hoping to get a better job; or is thinking about how to improve his/her skills to be eligible for other employment. Career Center customers who have significant barriers to employment or reemployment may qualify for vocational training.

There are currently more than 250 *individual training courses*, covering a wide range of industries and skill areas, an eligible customer can access. After a discussion with a Career Center Counselor, eligible customers seeking vocational training are assigned an Individual Training Account voucher which covers all or most of the costs of the training program they have selected as best meeting the customer's needs.

Career Centers provide services to employers by screening, assessing and referring qualified candidates for job openings. The Career Centers also host job fairs and other employment related activities.
